

# The Asian Development Bank Business Opportunities Fair in Manila

## March 2019

The Governments of Alberta, British Columbia, Ontario and Quebec, in cooperation with Global Affairs Canada, are organizing a joint mission to the 10th Asian Development Bank (ADB) Business Opportunities Fair (BOF) in March 2019, with an optional side mission to India.

The mission is an avenue for academia, contractors, manufacturers, suppliers, and individual consultants who are interested in ADB Projects to meet ADB sectorial experts and get increased exposure to one of Asia's most important financial organizations. Priority sectors include energy and clean technology, infrastructure, water and waste management, transport and ICT, health and education and agriculture and natural resources, public management and finance. Doing business with IFI's, such as the ADB, can be an excellent market entry strategy.

Participating companies will have the opportunity to experience:

- presentations on the ADB procurement process and sectorial opportunities
- market briefings by the Trade Commissioner Service
- tailored networking and business-to-business meetings
- site visits with key private and government organizations to ADB sponsored projects

In collaboration with Global Affairs Canada, we are organizing additional meetings and activities for Canadian companies, which will take place before the BOF. The optional mission have incurred costs but the BOF is a free two-day seminar.

### Participation fees and Package Options\*

(it is possible to participate in one or more components of the mission)

Option 1 ADB BOF only	FREE
Option 2 India + ADB BOF	\$500

\* Package per organization and per participant.

**Registration deadline: January 28, 2019**
